COVID-19 Challenges

• Academic Health Systems accustomed to working independently.
• Fast-paced change in what we know about SARS-CoV-2.
• Urgent need to assess readiness and respond in a coordinated manner.
• As part of University of California - with nearly 300,000 students – charged by President Napolitano to provide guidance to campuses

Approach

• Supplement University’s crisis management structure with clinical, research and health education experts from health enterprise
• Harmonize data from multiple system to provide dashboard summaries.
• Frequent, cross-functional virtual meetings to break down barriers and expedite information sharing.
• Be transparent
